An exciting opportunity is currently available for a Graduate who has completed a Degree (or BTech) in a Technology related field, with Development capabilities to join the Akhile Digital development team, preferably based in Cape Town, however working remotely will be considered.

Akhile Digital will afford the applicant the opportunity to work with cutting edge technologies within a dynamic team focused on the agile development of greenfield solutions for local challenges and impacting on the improvement of government and industry.

PURPOSE AND OBJECTIVE

The Web Application Developer will take a Graduate role in the design and development of exciting innovative bigdata platforms in an agile environment and will be support the developers responsible for the specification, design and development of web applications based on user requirements and industry norms and standards. Experience in cloud-based web applications deployed using containerisation, would be advantageous.

RESPONSIBILITIES

- ▲ Be able to work remotely.
- ▲ Support with the development of technical specifications and architecture.
- ▲ Write clean, maintainable code with appropriate test coverage.
- ▲ Participate in code reviews, sprint estimations and retrospectives.
- ▲ Research, identify, implement, test, and modify new technologies.
- ▲ Work with mentors and the team on key projects.

SKILLS

- ▲ Strong HTML/CSS/JavaScript skills will be an advantage, basic understanding is needed.
- ▲ C#, .NET, ASP.NET MVC / ASP.NET Core.
- ▲ Azure Cloud Architecture knowledge, specifically containerised web application deployed using Kubernetes is required.
- ▲ Experience with GIT.
- ▲ Knowledge of web application security (OWASP).
- ▲ Microsoft certification will be an advantage.

PERSONAL ATTRIBUTES

- ▲ Delivery and outcomes focused – be deadline driven;
- ▲ Team Player – must be able to work as part of a multi-cultural, dynamic and diverse team;
- ▲ Well organised in development and implementation workflow;
- ▲ Promptly recognise emerging problems and identify potential solutions;
- ▲ Good oral, written, and interpersonal communication skills; and
- ▲ Good critical thinking skills.

QUALIFICATIONS AND EXPERIENCE

Relevant Degree (Btech) is preferred for this post.

WHAT IS IN IT FOR YOU

- ▲ A powerful laptop computer;
- ▲ Incentives for learning and development that help you grow;
- ▲ Remote work with flexible working hours;
- ▲ Projects that have a real impact on the citizens of our country;
- ▲ Opportunity to work with clients where you can see how your solutions are used; and
- ▲ Opportunity to develop yourself as a web developer.

WHAT CAN YOU EXPECT DURING THE RECRUITMENT PROCESS?

- ▲ Screening call with Technical Management team
- ▲ Home assignment (as needed)
- ▲ Interview with CTO
- ▲ Culture Fit Interview (we cherish our values, you can read about it at <https://akhile.co.za/>)
